## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

\* The primary reasons for allowance for claims 1-6 are the inclusion of the limitations of a printing mechanism comprising a pair of busbars mounted on an elongate support structure, a plurality of printhead modules mounted on respective ink distribution structures, each module having a carrier and a printhead chip positioned on the carrier, each chip having a plurality of nozzle arrangements that are positioned on a wafer substrate, each nozzle arrangement incorporating a micro-electromechanical actuator for ejecting ink , and being mounted on a respective ink distribution assembly, a number of chips being connected to a print engine control circuitry. It is these limitations, either alone or combined, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
